EDUCATION:

Enrolled: 2026	Certified Financial Planner (CFP) Financial Planning (FP) Canada, Edmonton, AB
Dec 2025	Canadian Securities Course (CSC) Canadian Securities Institute, Edmonton, AB
Jun 2025	Bachelor of Commerce University of Alberta, School of Business, Edmonton, AB • Major: Finance; Minor: Business Law
Jun 2020	Advanced High School Diploma Louis St. Laurent High School, Edmonton, AB • Graduated with Honours

WORK EXPERIENCE:

Jan 2026 – Present	<u>Financial Planning & Tax Assistant</u> Clear Sky Private Wealth (IA Private Wealth), Edmonton, AB • Prepared individual tax returns for high-net-worth retail and institutional clients, ensuring accuracy and compliance with current CRA regulations. • Researched federal and provincial tax rules using firm resources to support positions taken on complex deductions, credits, and questions. • Advised clients on tax-efficient strategies involving registered accounts, tax-loss selling, and multi-account planning.
Jul 2023 – Sep 2025	<u>Seminar Assistant</u> University of Alberta, Faculty of Education, Edmonton, AB • Liaised with students, instructors, and the Program Manager to organize and lead international students on cultural excursions and activities. • Advised Japanese business students from Rikkyo University during classroom activities including the creation of detailed business plans. • Organized overnight excursions to Banff for up to 100 participants and created comprehensive information packages and itineraries.
May 2025 Fixed Term	<u>Elections Canada – Federal Election 2025</u> Service Agent (SA), Edmonton, AB • Assisted electors with registration, identification verification, and ballot issuance while ensuring compliance with federal electoral procedures. • Collaborated with election officers and site staff to ensure smooth, impartial operations in a fast-paced, high-volume environment.

PERSONAL PROJECTS:

2025 – Present	<u>Portfolio Dashboard</u> — elmatthe.github.io/portfolio-dashboard <i>Ongoing development started 2025 · Built leveraging Claude Code, OpenAI Codex, and Cursor AI agents run locally -- Python · FastAPI · SQLAlchemy · React 18 · TypeScript · Electron · pandas · pytest</i> • Designed and built a personal investment tracking application that consolidates holdings across 11 Canadian and international brokerages (Questrade, Wealthsimple, RBC, TD, CIBC, and more), multiple currencies, and all major registered account types (TFSA, RRSP, RESP, FHSA). • Built automated tax reporting tools that calculate capital gains and adjusted cost base in accordance with CRA rules, track TFSA contribution room, flag superficial loss situations, and generate ready-to-use PDF tax and annual portfolio reports. • Architected a full-stack desktop app (FastAPI REST backend, React/TypeScript frontend, Electron shell) packaged into a Windows installer; wrote a 187-test pytest suite covering parsers, FX service, and ACB logic. • Built analytics modules for Sharpe ratio, correlation matrix, dividend tracker, rebalancing advisor, and a What-If tax simulator with marginal-rate estimates per account type.
----------------	---

2025 – Present

Audiobook Toolkit & Streaming Platform (Private – crimson-audiobooks.com)

Ongoing development started 2025 · Built leveraging Claude Code, OpenAI Codex, and Cursor AI agents run locally -- Python · ffmpeg · Edge TTS · Kokoro-82M · Next.js 14 · TypeScript · Docker · Audiobookshelf · Caddy

- Built a text-to-audiobook converter supporting EPUB, PDF, and TXT input; produces M4B/MP3 output using Microsoft Edge Neural TTS or a local offline Kokoro-82M AI voice model with parallel async synthesis, a Tkinter desktop GUI, and batch processing.
- Developed a suite of Python audiobook preparation utilities, an M4B maker (merges and chapterizes MP3 folders via ffmpeg), a cover image resizer, and an MP3/M4B metadata tagger to standardize files for library ingestion.
- Built and own Crimson-Audiobooks.com, a private self-hosted streaming platform/domain (Next.js 14 PWA + Audiobookshelf + Caddy HTTPS + Docker Compose) serving a personal library to ~20 users on iOS and Android with offline downloads, lock screen controls via Media Session API, and cross-device progress sync.

VOLUNTEER EXPERIENCE:

2025-2026
Season

Edmonton Female Hockey Association (EFHA)

Vice President of Finance

- Oversee financial planning, budgeting, and reporting to support sustainable operations for a large community sports association.

Jul 2023 –
Present

English Language School (U of A)

English Language School Volunteer, University of Alberta

- Assisted students in improving English skills through conversation practice, guest presentations, and fostering community connections.

SKILLS:

- **Adaptability:** Comfortable moving between technical and client-facing work; quick to learn new tools, platforms, and workflows whether in a professional, academic, or self-directed context.
- **Financial Analysis:** Proficient in Excel (VBA, financial modelling, and automated reporting); experienced with market data platforms including Bloomberg, Refinitiv, and Yahoo Finance API integrations for database population and web scraping workflows; skilled using programs like Croesus and Power BI for portfolio analytics; working knowledge of QuickBooks for accounting and bookkeeping.
- **Programming & Development:** Proficient in Python (FastAPI, SQLAlchemy, pandas, pdfplumber, pytest) and TypeScript/React, JavaScript; experienced building full-stack desktop applications with SQLite databases, REST APIs, and Windows installers via PyInstaller and electron-builder.
- **AI & Automation:** Leverage cloud based and local setup, AI coding agents (Claude Code, OpenAI Codex, Cursor) software development; applied (Kokoro-82M, Microsoft Edge Neural TTS) for audiobook projects; built automated data pipelines, self-hosted Docker services, and zero-install launchers using PowerShell and batch scripting.
- **Financial Analysis:** Proficient in Excel (VBA, financial modelling, and automated reporting); experienced with market data platforms including Bloomberg, Refinitiv, and Yahoo Finance API integrations for database population and web scraping workflows; skilled in Croesus and Power BI for portfolio analytics; working knowledge of QuickBooks for accounting and bookkeeping.
- **Inter-cultural Communication:** Skilled at building relationships and fostering collaboration among individuals from diverse cultural and linguistic backgrounds.
- **Leadership:** Skilled at asserting authority both on and off the ice, from leading groups of international students on various activities to ensuring a safe and respectful playing environment as a hockey referee.

OTHER PERSONAL INTERESTS:

- Captained competitive AAA hockey teams through minor hockey career; continue to play in a recreational men's hockey league, AMHL, and remain active in the sport year-round.
- Love to golf and am entering my seventh year at Lewis Estates Golf Course, where I continue working part-time in course maintenance on weekends, complimentary greens fees being a perk I have never once taken for granted.
- Guitarist and musician with a particular appreciation for blues and folk music; enjoy the challenge of continually studying the instrument as a creative counterbalance to analytical work.
- Enthusiast of financial markets and emerging technologies; particularly enjoy actively tracking the performance and evolution of AI companies, alongside broader interests in fintech, AI-assisted investing, and sustainable investments.
